Business Men, Long Kept Out of Market, Get Back Into Operations. Talk of Loans.

Talk of Loans.

New York, March 16.—Sugar, automobile and munitions stocks were most active in Wall Street today, Much profit taking was seen, but it failed to unsettle the market. Not even a new rumor made its appearance and there was nothing in the news to influence stocks.

What the market did seemed to be seemed to be

What the market did seemed to be due entirely to a return of invest-ment buying which encouraged pool operations. Brokers report large quan-

ment buying which encouraged pool operations. Brokers report large quantities of stocks being paid for in full and taken from the Street.

New customers who did not participate in last year's big market are making their appearance. These new customers are business men who were unable to do anything in Wall Street last year because the wave of prosperity had not yet reached them.

The Cuba Cane Sugar Syndicate announced that all the \$50,000,000 preferred stock had been sold.

This sugar company is earning, according to an official statement, about five times the preferred dividend at present prices for sugar. It is estimated that earnings will be at least one and a half times the preferred dividend requirements at the lowest price at which full sugar cargo has been sold during the last ten years. In connection with the Canadian load, bankers discuss the possibility of other foreign loans in the near future. There is a new spirit manifest in connection with these loans. It is the desire to have them made under future. There is a new spirit manifest in connection with these loans. It is the desire to have them made under (such circumstances that they will do some lasting good to civilization as well as assist in ending the war.

Among other things it is believed that a proviso may be made to set aside a definite percentage of the next loan for the relief of Beigium.

Mexican financing is also to be done in New York and, as in the case of Europe, reforms will be demanded in that country as a condition of doing the financing.

Guarantees for the safety of American lives and capital of a substantial character must be given before any funds are forthcoming.

Are those that do not fluctuate during dis-turbed conditions of the money or stock mar-hets. First deed of trust notes (first meri-gages), well secured on real estate in the Dis-trict of Cohumbia, constitute "gill-edge" in-ventments. They do not depend upon the financial responsibility of individuals or confinancial responsibility of individuals or cor-porations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$300 upward. Send for booklet, "Concerning Loans and Investments."
